

Bologna, 11/06/2026

Dear Partners and Distributors,

Over the past years, i-Tech Industries has pursued a path of sustained international growth, expanding its global presence, creating new business opportunities, and continuously investing in the technology, innovation, and expertise that distinguish our solutions.

As our organization evolves, so too does our commitment to providing an increasingly structured and effective support system; one that remains close to our partners, understands the specific dynamics of each market, and delivers practical, value-driven guidance.

It is within this framework that we are delighted to announce the appointment of Giovanni Avanzini as Sales and Marketing Director.

Giovanni brings with him extensive international experience in commercial leadership, business development, and market expansion. His strategic vision, combined with a pragmatic and results-oriented approach, will further strengthen our ability to support our partners and accelerate growth across all markets.

In his new role, Giovanni will lead i-Tech Industries' sales and Marketing organization, working closely with our distributors and partners to foster business development, strengthen market positioning, and create new opportunities for mutual success.

At the same time, Luca Gualdrini will continue in his role as General Manager, concentrating on the development and consolidation of both existing and prospective key accounts. His efforts will be dedicated to reinforcing strategic relationships, expanding our international network, and increasing the long-term value generated through these partnerships.

This organizational evolution reflects our unwavering commitment to continuity, stability, and sustainable growth. Our leadership remains fully aligned around a long-term vision focused on innovation, excellence, and the creation of lasting value for our customers and partners worldwide.

We are confident that this new chapter will enable us to serve you even more effectively and further strengthen the trusted partnership that we have built together over the years.

Yours sincerely,

*Gianfranco Tudico
Luca Gualdrini*
